AT&T Fleet Complete®

Fleet Tracker MGS700

Tackle common fleet issues and unlock the potential that AT&T Fleet Complete Fleet Tracker can harness on your field staff:

- **Monitor driving behavior**: excessive speeding, harsh braking and racing is dangerous and is costing you in maintenance fees and increased fuel consumption.
- **Get insight into your vehicle like never before**: MGS700 integrates with your vehicle's ECM and delivers you important vehicle data.
- **Prolong your vehicle life:** receive instant DTC code alerts and schedule vehicle service before critical breakage occurs.
- **Know where your fleet is at all times, even in remote locations:** track your vehicles in remote locations where cellular network is unavailable with our Satellite Failover option.

Get more with less

The AT&T Fleet Tracker can also help improve your operational efficiencies because you are able to monitor, on your desk/lap top, tablet or smart phone, information from the field with our easy-to-use software. When you see what you've been missing you can reduce such things as idle time, off-hours driving, payroll and paid overtime. It can also reduce wasted time due to increased driver and dispatch efficiency and enhance mobile worker management.

ECM integration

The MGS700 device connects to your vehicle Engine Control Module through OBD-II/CANBUS, J1939 or J1708 cables and provides your fleet managers accurate vehicle data like True Odometer, DTC Codes, ECM Status and Fuel Consumption. Take full advantage of the DTC Rules and Reporting to help improve your vehicle performance and fleet efficiency.

Advanced reporting

AT&T Fleet Complete platform provides your business the ability to assess your fleet performance and identify opportunities to improve your fleet efficiency. Our robust Reporting feature offers 25 Operational exportable reports in Excel, PDF, CSV, and other formats. Schedule them on regular basis or run them on-demand and get the detailed data from the field when you need it. AT&T Fleet Complete' s live Dashboard and brand new Power Reports provide you the up-to-date comprehensive Business Intelligence to help you take your business to the next level.

Key features

AT&T Fleet Tracker MGS700 is our state-of-the-art fleet tracking solution designed to give you visibility of your fleet, location-based real-time vehicle tracking, information on driver behavior and reports on sensor data.

- Built-in Bluetooth and back-up battery (compatible with HOS)
- Self-install capable with OBD-II/CANBUS, J1939 or J1708 connection
- Ability to be plugged into the ECM connection or hardwired into vehicles to collect information such as: ECM status, ignition status, battery voltage, DTC Codes*, as well as driver behaviors such as speeding, idling, harsh cornering/braking and rapid acceleration.

* Additional service activation is required
