SMALL & MEDIUM BUSINESS

MONITORING & MANAGEMENT
Feature Brief

Busy? Too busy? Absolutely Buried?

We get it. Your day can go from zero to sixty at the drop of a hat. You want to fix your firewall issue, but that email server is acting up. Then, the network goes down. How do you prioritize your day when network outages can't be dealt with until it's too late?

Bonded Internet™ - See the Big Picture

Don't have the time to see the forest for the trees? Our network monitoring and management service gives you visibility into what really matters to enhance your network experience. We will proactively monitor and alert you of real-time network issues. We will troubleshoot and put out the network-related fire and we help you strategize to make the right network choices with confidence – for now and the future.

Stop Being So Busy - Start Being Productive

Businesses already spend a huge portion of IT budgets on Wide Area Network (WAN) services. Often, the outcome is less than desired: you have limited knowledge of what is actually going on across the network. We give you insight with context. We expertly pinpoint the issues in real-time. We take care of your network so you can focus on what matters – keeping your business productive.

Benefits

PROACTIVE REPORTING OF REAL-TIME NETWORK ISSUES:
- Jitter
- Latency
- Packet-loss
- Bandwidth fluctuation
- Connection state changes
- Throughput/usage

PRODUCTIVITY
Solve network headaches that impede your business to get the most out of your network.
Real-time traffic and WAN health configured to align with your business policies.

RETURN ON INVESTMENT
Cost-effective solutions designed to optimize IT investments.

PEACE OF MIND
Get alerted to issues before they become a problem.

VISIBILITY
Secure portal for viewing and managing your entire Wide Area Network (WAN).
