We Have A Perfectly Legal Way For You To Save A Bundle Of Money On Taxes, Computer Hardware, And Support, But You Have To Act FAST...

Please forgive the headline if it seems a bit "sensational", but we really needed a way to get your attention about a perfectly legal way to save a LOT of money on taxes, computer hardware and office equipment that is quickly going to pass you by if you don't act soon.

Let us explain...

Thanks to a recently updated tax deduction titled "Section 179 Election", the Federal Government now allows you to buy up to \$2.56 million in machinery, computers, software, office furniture, vehicles, or other tangible goods and thereby REDUCING your taxable income on your current year's tax return. There's also additional bonus depreciation available after you hit this limit, up to about \$4 million in equipment purchases. See your tax consultant for details.

This could mean a substantial boost to your bottom line this year. But to get the deduction for this tax year, you have to act now, as once the clock strikes midnight on 12/31, Section 179 can't help your current year profits anymore.

If you want to see how much small businesses love the Section 179 deduction, take a little peek inside any office furniture or equipment store between Christmas and New Year's Day. Chances are you'll see lots of buyers racking up some year-end deductions!

But That's Not The Only Way You'll Save Money... Manufacturers and Vendors Are ALSO Giving Year-End Discounts, Rebates and Incentives

Most IT vendors and manufacturers offer really incredible rebates and discounts on equipment toward the end of the year in a last ditch effort to improve annual sales. After all, they need to look good to their investors!

So if you are going to need a network upgrade in the near future, you can not only get better deals on software and equipment, but you can also get the generous tax savings making this a double dip on saving money.

But Here's How I'm Going To "Sweeten The Pot" And Help You Save Even MORE Money

In the spirit of saving you money, we've decided to "sweeten the pot" and make the following offer to anyone who hires us to upgrade their network before December 15 of this year:

- **We will give away 3 FULL MONTHS of our AlphaCare Foundations Plan** — that's worth up to \$3,000 – absolutely FREE to anyone who upgrades their network with us. All computer networks need regular ongoing maintenance to keep them running problem-free, and with our AlphaCare support plan, you'll not only enjoy faster and more reliable service from your computer network, but you'll gain incredible peace of mind knowing that your network and the data it holds is safe from loss, corruption, downtime, viruses, hackers, spyware, and a host of other problems. All you need to do is sign up for 1 year of our Foundations Plan, and the first 3 months are free. ***If you already have one of our Support Plans, we'll give you a free day of engineer time instead. Just mention this insert to get your free day. This can be used to install the equipment you're buying, or for something else entirely.***

After all, no one wants to hand over one penny more to the government than is absolutely necessary and no one wants to pay MORE for services and products than they have to. We all work way too hard for that!

That's why we're making this offer to you. As fellow entrepreneurs and business owners, we understand that it's critical to keep every penny of profit that you can.

This Is Absolutely The BEST Way To Save A Lot Of Money On IT Services And Support For next year and beyond, But You Must Act NOW Because This Offer Is Going To Go Away FAST...

All you have to do is contact us by phone or email so we can schedule a time to discuss exactly what type of upgrades and support you will need for the upcoming year. Remember, we don't have to do the actual installation before the end of the year, but you must spend the money before December 31st or the IRS won't allow the deduction!

Remember, the ONLY way to take advantage of the discounts and tax breaks we've outlined in this letter is to act before December 15. After that, all bets are off and you will be forced to pay full price for all upgrades and support!

To Take Advantage of This Opportunity, call 508-471-3155 or email info@alphanetsolutions.com
