Microphone**

I-GUARD 8000-30X

This configuration of I-Guard system is among the top of its line of surveillance amount systems with enormous amount of flexibility which allows its operator to have a full 360 degree line of sight. Using a powerful Samsung SNP-3300A model IP camera with up to 30 times optical zooming capability (*240 times zoom with digital zoom*) makes this system highly effective surveillance tool. The SNP-3300A is a day/Night camera. Sophisticated motion and audio detection functions are just some of the many advanced features of this system. SNP-3300A is equipped with a two-way audio capability which allows delivering and receiving voice both ways making it easy to communicate from and to the camera location. Additionally our system carries a 30 watt siren so we can get the attention of the intruders in seconds making them aware of the presence of security. Also, because the minimum illumination level is 0.4 lx at F 1.6 (color), 0.08 Lx at F1.6 (B/W) the SNP-3300A operates extremely well even in low-light conditions. This design is a great tool for live surveillance solutions.
