

Sage 100 ERP Tips and Tricks:

Enable Company Specific Background Colors (MAS90/200)

Prepared by:

Anthony Volpe
Senior Software Consultant

December 2015

Running more than one company in your Sage100 ERP system? Avoid accidentally entering information in the wrong company code by utilizing company specific background colors!

Steps to specify background color:

1. Go to Library Master > Main > Company Maintenance
2. Select your company code
3. Click on Tab #2 Preferences
4. Select an option for "Enable Company Specific Background Color"
 - a. Select Background to use the company-specific color for the window background
 - b. Select Frame to use the company-specific color only for the frame around the edge of the window.
 - c. Select Both to use the company-specific color for both the window background and the frame.
5. Hit "Select Color"
6. Choose one of the standard colors, or create your own by hitting "Define Custom Colors"

The screenshot shows the 'Company Maintenance (ABC) 12/10/2015' window. The 'Preferences' tab is selected. In the 'Background Color' section, the 'Enable Company Specific Background Color' dropdown is set to 'Both'. Below it, the 'RGB Value' fields are set to 212, 208, and 200. The 'Select Color...' button is highlighted with a red box. Other sections visible include 'Miscellaneous', 'Date Settings', and 'Web Services'.

****Note**** The Sage 100 main screen and any library master screens do not change color since they are global to all companies in Sage 100.

For more information or assistance with modifying the lookup window in Sage 100 ERP (MAS 90/200), contact us now at info@llbgroup.com or [267.457.4700](tel:267.457.4700).
