

First visit checklist

To expedite your visit and get the maximum benefit out of it, we recommend that you bring the following to your appointment:

- New patient questionnaire
- All previous spine imaging: MRI, CT and x-rays (both the discs and radiology reports) – do not expect the referring office to send it, bring it yourself
- Other studies: EMG/nerve conduction, arterial ultrasound, bone scans
- Reports for the previous spine surgeries
- Reports for the previous injections
- All medication bottles
- Insurance card and ID
- Copay (due at the time of service).
