WEBSITES THAT WORK FAQ

HOW LONG DOES IT TAKE UNTIL I GO LIVE?

Most sites are up and running in 6-8 weeks. Some take a little longer, depending on how many revisions are requested and the complexity of the project. Our recommendation is to go live as soon as you can and make changes later. The Managed Website Package allows you to make an unlimited number of changes, so you have plenty of time to get it right.

WILL MY WEBSITE BE MOBILE OPTIMIZED?

Every website we build uses responsive design, which means every page will render correctly and convert visitors, regardless of their device. From smartphones to tablets to laptops to PC monitors, it's great to know that your website will always be looking its best.

WILL MY WEBSITE INTEGRATE WITH OTHER MARKETING SERVICES?

Yes! Pronto websites integrate with many popular marketing and sales platforms such as Mailchimp, Campaign Monitor, Google Analytics, GravityForms, Salesforce.com, WooCommerce, Zapier and many more. Remember that your website is the foundation of all your online marketing and Pronto can work with you on advanced marketing too.

WHAT HAPPENS IF I CANCEL?

There are no contracts - you can cancel at anytime. If you have been with Pronto for twelve consecutive months or more, you can take all website content, blog articles, graphic designs, webpage layout and rendered HTML/CSS. We do not however provide the underlying WordPress theme code, plugins or database files.

HOW WILL YOU HELP BRING MORE TRAFFIC?

Although we can't make guarantees, our clients often see a strong increase in organic and overall traffic after switching to Pronto. We do this by improving your website's SEO and making it more visible in local business directories. We have other premium add on services including link building and email newsletter, designed to bring even more traffic to your website.

WHAT DO YOU DO TO DIFFERENTIATE ME FROM MY COMPETITORS?

We don't use rigid templates or themes. Our website platform allows us to create customized designs to share your unique story. After you go live, if you ever find a competitor has a similar website we can work with you to change it until you're satisfied.

WILL YOU HOST MY WEBSITE?

Yes! We host and maintain over 1,500 websites around the world via our own secure platform - 99.996% up-time. All you need to do is update your DNS records to point your domain to our servers. Or we can do this for you if you give us your DNS account credentials.

IS ANNUAL PRICING AVAILABLE?

Yes, it is. For customers who prefer to pay on an annual basis, as opposed to monthly, we offer a 10% discount on the annualized costs. Your contract will renew and you will be charged each year on the same day you signed up.
