

Compliance

Compliant facilities and methodologies to handle industry and governmental regulations

We serve clients that must comply with regulations related to:

- ▶ HIPPA
- ▶ PCI
- ▶ GLBA
- ▶ PHI
- ▶ FISMA
- ▶ Sarbanes-Oxley
- ▶ Fair Credit Reporting
- ▶ State Mandates

In addition to securing confidential information, appropriate physical controls are in place to provide secure access to facilities and sensitive, controlled areas. Environmental controls for fire suppression, flood control and HVAC are in place to protect critical systems and source data.

Our privacy program addresses all elements of information privacy, compliance and preparedness to information security, electronic communications policies and procedures, computer security, user guidelines and security awareness. We monitor legislations at both the federal and state levels ensuring compliance with regulatory obligations.
