

Double Clamping Mechanism Drum Grabber

FACTORY SUPPLY INC.
3412 49th Street North
Saint Petersburg, FL 33710

Designed For

This lift truck attachments incorporates heavy-duty double articulating clamping mechanisms for handling any steel, plastic or fiber chimed drums in high volume applications. These attachments provide the safest available method of lifting and transporting any chimed drum with a lift truck.

Movement

The clamping mechanisms are completely mechanical requiring no hydraulic or electrical connections. Each drum is gripped with two upper and lower jaws in heads which are spaced about 6 inches apart. The swivel action of this drum lifter is operator friendly permitting pickup of misaligned or slightly separated drums.
