

## BLASTING NOTICE UPDATE

In acknowledgement of community concerns related to late night blasting activities associated with the Second Avenue Subway Project, MTA Capital Construction has revised project blasting hours to address the issue. As of Monday, August 15<sup>th</sup>, MTA Capital Construction has instructed its contractor that all blasting is to occur prior to 7 P.M. on a regular basis. The following exceptions will apply:

- Blasting that would affect operations at Memorial Sloan-Kettering/ 64th Street Outpatient Center will be scheduled to occur later in the day to avoid interference with patient care.
- Unforeseen circumstances, limited to instances where there are safety concerns

In those limited instances where post 7 P.M. blasting becomes necessary, an email notification will be sent out to the Community Board, local elected officials and all interested community representatives.

Please be advised that those interested in being on the blasting notification email data base, should send their email address to our Second Avenue Subway Community Liaison at [claudia.wilson@2avesubway.com](mailto:claudia.wilson@2avesubway.com).
